INDEX TO VOLUME 22

A	Page		Page
Absorption spectra of iron, cobalt, and nickel.	205	Cross, H. C., and E. E. Hill, Density of hot-rolled and heat-treated carbon steels.....	451
Alloys.....	533, 639	Current, distribution of, in supraconductors.	293
aluminum-beryllium, thermal expansion.....	533	Curtis, Harvey L., and Charles Moon, Absolute measurement of capacitance by Maxwell's method.....	487
low-carbon iron chromium.....	639	—, A. T. McPherson, and A. H. Scott, Density and electrical properties of the system, rubber-sulphur.....	383
stainless iron.....	639		
Analysis, an, of the arc and spark spectra of scandium (Sc I and Sc II).....	329	D	
Antenna, capacity, calculation of.....	569	Dellinger, J. H., C. B. Jolliffe, and T. Parkinson, Cooperative measurements of radio fading in 1925.....	419
Application of the algebraic aberration equations to optical design.....	73	Density of hot-rolled and heat-treated carbon steels.....	451
Arc and spark spectra, scandium (Sc I and Sc II).....	329	of rubber-sulphur compounds.....	383
zirconium, wave-length measurements in the.....	47	Dielectric constant of rubber-sulphur compounds.....	383
Arc spectrum of scandium, wave-length measurements in the.....	61	Dioxide, sulphur, determination of.....	277
Audio currents of adjustable frequency with piezo-electric stabilization, generator for....	631	Distribution of current in supraconductors..	293
B		E	
Base point, a suggested new, on the thermometric scale.....	315	Eckman, J. R., Determination of sulphur dioxide, together with some analyses of commercial liquid sulphur dioxide.....	277
Bates, Frederick, and Francis P. Phelps, A suggested new base point on the thermometric scale and the $\alpha\leftrightarrow\beta$ inversion of quartz.....	315	—, Louis Jordan and, Gases in metals. III. The determination of nitrogen in metals by fusion in vacuum.....	467
Berglund, Torkel, Henry S. Rawdon and, Unusual features in the microstructure of ferrite.....	649	Electrical properties of rubber-sulphur compounds.....	383
Beryllium.....	533	Expansion, thermal.....	533, 639
alloys, thermal expansion.....	533	alloys of stainless iron type.....	639
thermal expansion.....	533	aluminum-beryllium alloys.....	533
Building materials, transmission of sound through.....	227	beryllium.....	533
Burette, a weight, for the micromasurement of liquid volumes.....	287	iron chromium alloys.....	639
for the accurate measurement of gas volumes without gas connection to a compensator.....	375	stainless iron.....	639
		F	
C		Fading, radio, in 1925, cooperative measurements of.....	419
Capacitance, measurement of, by Maxwell's bridge.....	487	Ferrite, unusual features in the microstructure of.....	649
Capacity of antennas, calculation of.....	569	Finn, A. N., L. W. Tilton, A. O. Tool and, Cause and removal of certain heterogeneities in glass.....	719
Cause and removal of certain heterogeneities in glass.....	719	Formulas, antenna capacity.....	569
Charge, electrical, indeterminateness of.....	547		
Christer, V. L., Transmission of sound through building materials.....	227	G	
Cobalt, absorption spectra of.....	205	Gardner, I. C., Application of the algebraic aberration equations to optical design.....	73
Coblentz, W. W., and C. O. Lampland, Further radiometric measurements and temperature estimates of the planet Mars, 1926.	237	Gas volumes without gas connection to a compensator, a burette for the accurate measurement of.....	375
Color system, the Lovibond.....	1	Gases in metals.....	467
Conductors, supra, distribution of current in.	293		

	Page		Page
Rubber, density of compounds of, with sulphur.....	383	Sulphur dioxide, determination of sulphur trioxide in the presence of.....	277
electrical properties of compounds of, with sulphur.....	383	Sulphur trioxide, determination of, in the presence of sulphur dioxide.....	277
Rubber-sulphur compounds, density of.....	383	Supraconductors, distribution of current in..	293
electrical properties of.....	383		
<i>Russell, Norris, and William F. Meggers, Analysis of the arc and spark spectra of scandium (Sc I and Sc II).....</i>	329	T	
S		Temperature estimates and radiometric measurements of the planet Mars, 1926....	237
<i>Sanford, Raymond L., Some principles governing the choice and utilization of permanent-magnet steels.....</i>	557	Temperature of the $\alpha \rightleftharpoons \beta$ transformation of quartz.....	315
Scandium (Sc I and Sc II), an analysis of the arc and spark spectra of.....	329	Thermometric scale, a suggested new base point on the.....	315
Scandium, wave-length measurements in the arc spectrum of.....	61	Thermal expansion.....	639
<i>Scott, A. H., A. T. McPherson, H. L. Curtis and, Density and electrical properties of the system, rubber-sulphur.....</i>	383	alloys of stainless iron type.....	639
<i>Shepherd, Martin, A weight burette for the micromasurement of liquid volumes.....</i>	287	aluminum-beryllium alloys.....	533
—, <i>E. R. Weaver and, A burette for the accurate measurement of gas volumes without gas connections to a compensator.....</i>	375	beryllium.....	533
<i>Silsbee, F. B., Current distribution in supraconductors.....</i>	293	low-carbon iron chromium alloys.....	639
<i>Snow, Chester, Indeterminateness of electrical charge.....</i>	547	measurements.....	533
Sound through building materials, transmission of.....	227	stainless iron.....	639
Spark and arc spectra of zirconium, wave-length measurements in the.....	47	<i>Tilton, L. W., A. N. Finn, and A. Q. Tool, Cause and removal of certain heterogeneities in glass.....</i>	719
Spark spectra of scandium (Sc I and Sc II), arc and.....	329	<i>Tool, A. Q., L. W. Tilton, A. N. Finn, and, Cause and removal of certain heterogeneities in glass.....</i>	719
Spectra of zirconium, wave-length measurements in the arc and spark.....	47	Transmission of sound through building materials.....	227
Spectrophotometric analysis of the Lovibond glasses.....	1	Trioxide, sulphur, determination of, in the presence of sulphur dioxide.....	277
<i>Sweeney, W. T., Peter Hidvert and, Thermal expansion of alloys of the "stainless iron" type.....</i>	639		
—, —, Thermal expansion of beryllium and aluminum-beryllium alloys.....	533	V	
Stainless iron, thermal expansion of.....	639	Volumes, liquid, a weight burette for the measurement of.....	287
Steels, carbon, density of.....	451		
Steels, magnet, choice and utilization of.....	557	W	
		Wave-length measurements in the arc spectrum of scandium.....	61
		arc and spark spectra of zirconium.....	47
		<i>Walters, F. M., jr., W. F. Meggers and, Absorption spectra of iron, cobalt, and nickel..</i>	205
		<i>Weaver, E. R., and Martin Shepherd, A burette for the accurate measurement of gas volumes without gas connection to a compensator.....</i>	375
		Z	
		Zirconium, wave-length measurements in the arc and spark spectra of.....	47
